

1.

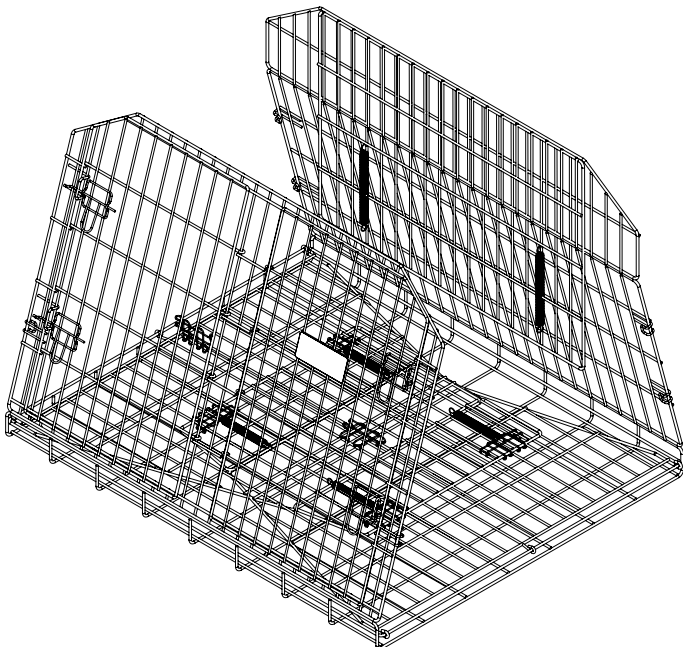

Generally, it is easier to assemble the cage inside the boot space of the car, although it can be assembled outside if the boot opening is large enough to lift the assembled cage through.

2.

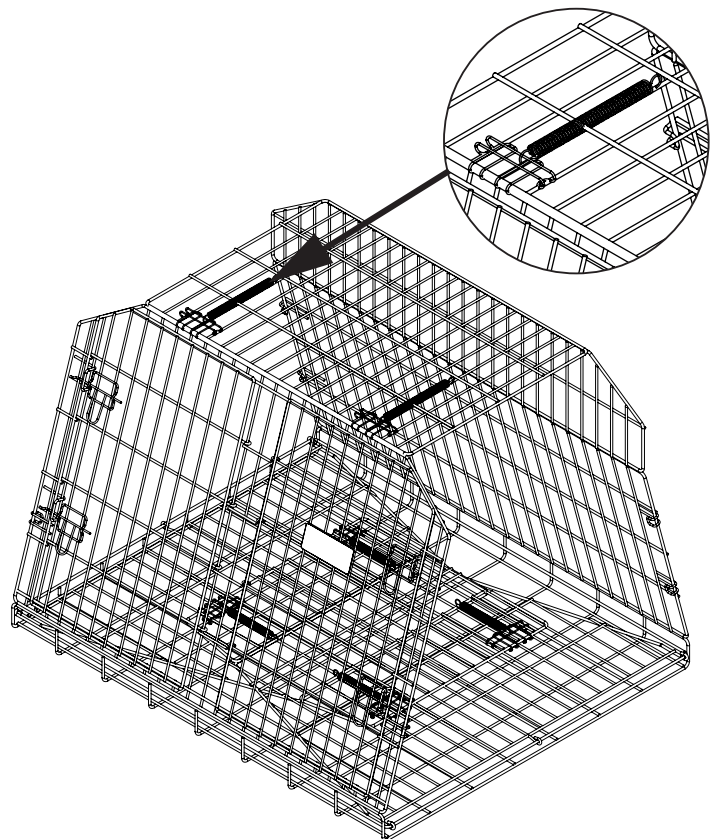

Raise and hold the front panel

3.

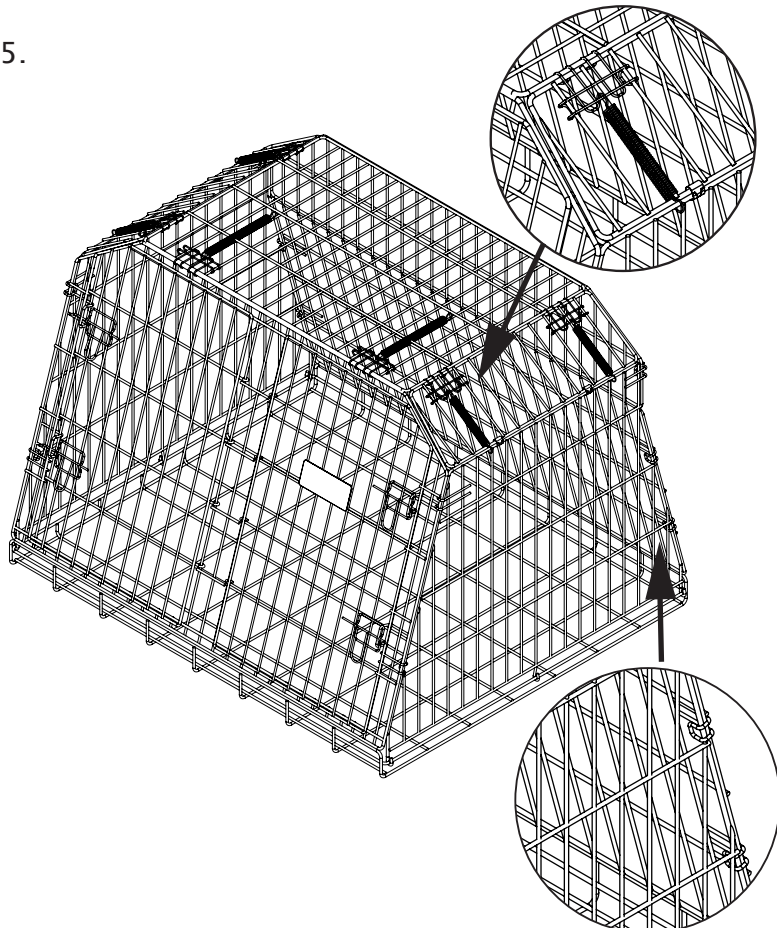

Raise the linked top and rear panels

4.

Fold out the top panel and connect to the front with the spring clips

5.

Lift up the sides and clip to the surrounding panels

WARNING: REMOVE YOUR DOGS COLLAR AND LEASH BEFORE ALLOWING IT TO ENTER THE CRATE.
